TIMSS27 FT - Submission - Plunet Guide for IEA

Access

Access the platform with the following link: <https://plunet.capstan.be>

Log in with your credentials.

Usernames are your email addresses.

The password is set up on your side. If you forget the password, please use the password reset sequence **Set up new password**) from the login screen to set a new password.

A screenshot of the Plunet login interface. The page has a white background with a blue border. At the top left is the word "Login" in blue. At the top right is a language selector "EN" with a dropdown arrow. Below "Login" is a "User name" label followed by a text input field. Below that is a "Password" label followed by a text input field with a toggle icon on the right. To the right of the password field is a link "Set up a new password". Below the input fields is a blue "Log in" button. At the bottom left is a link "Problems during login?".

Workflow

The workflow for TIMSS27 FT in Plunet is set up as shown above. The active step outlined in these instructions is shown in red and explained below.

Client Submission (CSU): This step is used to track which translation sets need to be submitted to cApStAn. Once the client submits the materials, the status changes so cApStAn knows they are ready for verification.

Verification (VER): At this step, cApStAn performs translation verification and review to ensure quality and consistency. When verification is complete, the task moves forward in the workflow.

Client Review (CRE): Here the client reviews the verified files to confirm they meet expectations. The client may approve the files, request revisions, or share comments with cApStAn. If there are no queries, the client deliver the task , and cApStAn will sign it off at the CSO step.

Query Resolution (QRE): This step is used if the client's review raises questions or requires changes. cApStAn addresses the comments, makes the necessary updates, and resubmits the files for review.

Client Sign-off (CSO): This is the final approval stage of the workflow. The client confirms that all verification and revisions are complete and no further action is needed. Once signed off, the files are finalized and remain with status Delivered till the end of the project.

Navigation

To submit a locale and set for verification, make sure you are logged in with the correct user account.

1. In your dashboard, click on **Jobs (###)** and get the list of all jobs below. Where ### is the total number of jobs

currently with IEA.

Dashboard

3. Find the locale and material type you wish to submit materials for.

Job no. ↓	Reviewer	Description ↓	Status ↓	Due date ↓
Target language: ka-GE				
☐ 0-25-00546-CSU-006	TIMSS Team QQ	Client Submission TIMSS27 - Field Test - Grade 4 & 8 QQ - English (International)/Georgian	In progress	30/09/2025

4. Click on the job number on the left to open the job window.

5. General steps for completion of the job are provided under Work Instructions.

The screenshot shows a job details page for 'O-25-00546-CSU-006'. The job is titled 'Submitting IEA Secretariat Nederland (IEA) - TIMSS27 - Field Test - Grade 4 & 8 ...'. It is in progress. The details include: Reviewer: TIMSS Team (Q), Start date: 18/09/2025, Price: 8.66 EUR, Contact person for job: cApStAn IEA, and Files: 0. The 'SPECIFICATION' tab is active, showing details like Job no., Client Submission, Items, and Description. The 'DELIVERY' tab is also visible, showing 'Work Instructions' which include steps for submitting the job, uploading files, and using the 'Final delivery' button.

6. In the Comment field, you will find links to the specific instructions created by cApStAn for IEA on the Plunet platform generally, and specifically about submission (these instructions included).

The screenshot shows the 'Comment' field in the cApStAn interface. It contains the following text: 'This job exists, so that the IEA TIMSS27 Team can submit this set to cApStAn. This includes workflow step transitions, notifications and file sharing.' Below this, there are two links: 'Detailed instructions on how to submit a set and locale to cApStAn: https://odoo.capstan.be/knownsystem/timss27-ft-submission-plunet-guide-for-iea-1097' and 'General instructions for IEA about the Plunet platform: https://odoo.capstan.be/knownsystem/timss27-ft-plunet-guide-for-iea-1087'.

7. Scenario-based instructions are provided below.

Scenarios

When materials are ready for submission
