

# ESS Round 10

Training for verifiers

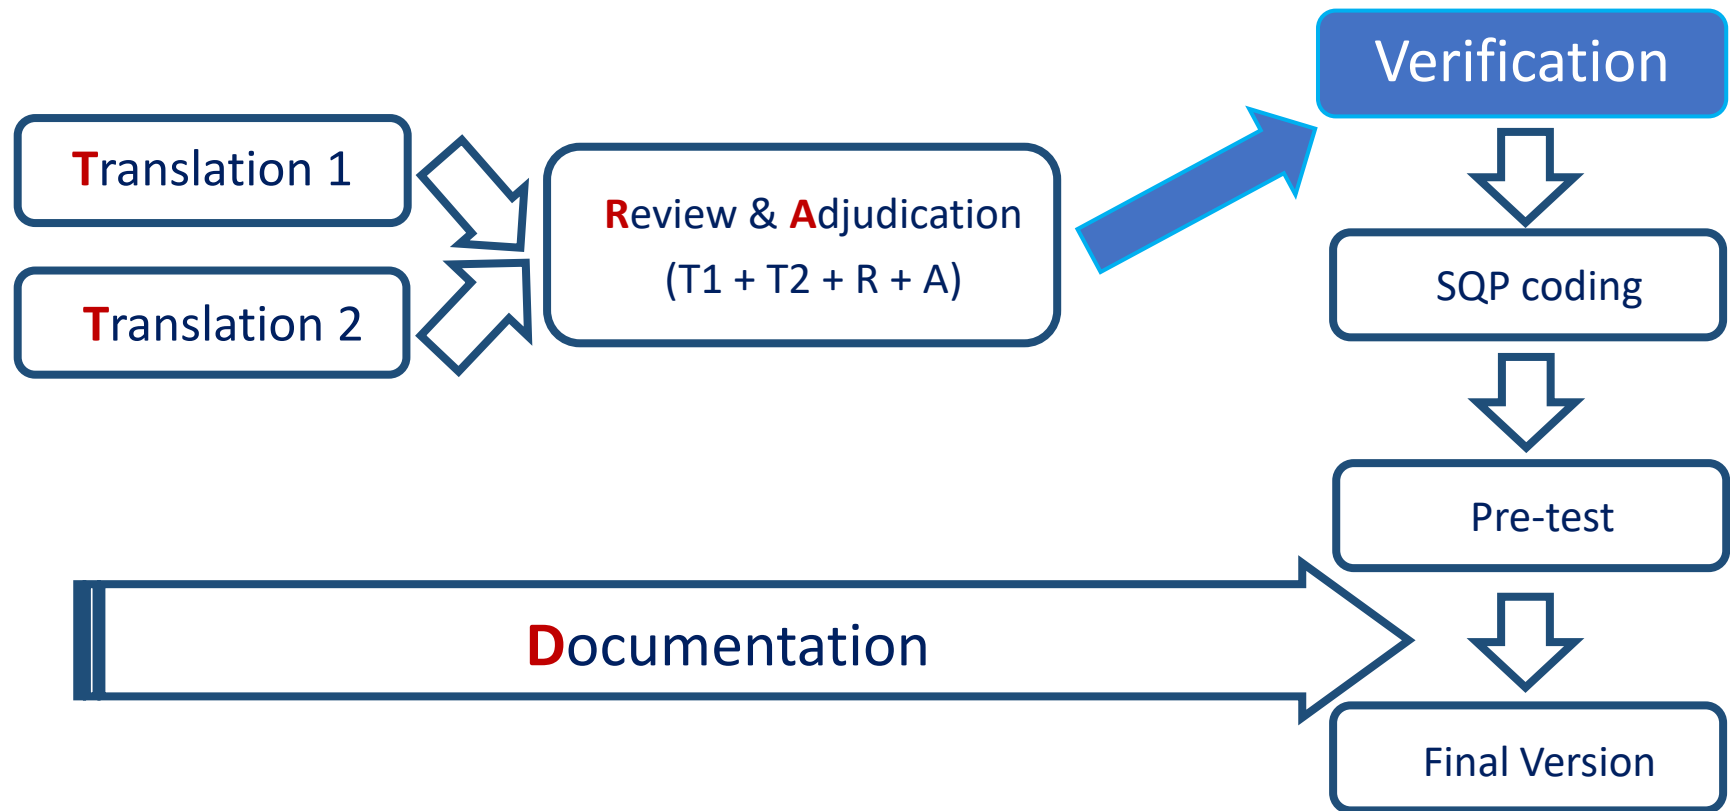

9 June 2020

# About the European Social Survey

- Established in 2001
- Monitors attitude change in participating countries
- Funded by European Commission, European Science Foundation and national funding bodies
- Directed by the City, University of London in co-operation with other institutions, e.g. GESIS
- Heterogeneous target: 15-year-olds and older (no upper age limit)
- Household questionnaire survey

# Advanced translation model: **TRAPD** workflow

# ESS Round 10 – 2020/2021

- CAPI - Computer Assisted Personal Interview  
(interviewer reads the question on a computer screen)  
'WRITE IN' → 'TYPE IN'
- Expected 27 countries, 27 languages, 36 national versions

Translation and verification in

- Word (3 versions)
- Excel (5 versions)
- TranslationCtrl (24 versions)

# ESS main characteristics

- Only partially verified (consistency)
- Focused verification (reasoning for item selection)
- Core modules and Rotating modules:
  - 6 Core modules
  - 2 Rotating modules

# Core and Rotating Modules

## Core modules

Module A - Media use

Module B – Politics

Module C - Subjective wellbeing

Module F - Socio-demographic

Section H - Human values scale

Section I - Test questions

Section J - Interviewer questionnaire

## Rotating modules ESS10

D – Democracy – ESS6

G – Digital Social Contacts – new!

# Verifier Intervention Categories

|                              |   |
|------------------------------|---|
| OK                           | <b>No intervention</b> is needed. The verifier has checked and confirms that the text element or segment is equivalent to source, linguistically correct, and – if applicable – that it conforms to an explicit translation/adaptation guideline.   |
| ADDED INFORMATION            | Information is present in the target version but not in the source version, e.g. an explanation between brackets of a preceding word.   |
| MISSING INFORMATION          | Information is present in the source version but omitted in the target version.   |
| CONSISTENCY                  | <p>1. <b>Within-item consistency:</b> repetitions or literal matches and/or synonymous matches that occur in the source version of an item should reflect the same pattern in the target version. If a word or expression is used consistently across the source questionnaire, the same level of consistency should be reflected in the translations, <u>unless fluency is affected</u>.</p> <p>2. <b>Across-item consistency:</b> <u>unless fluency is affected</u>, recurring elements such as response categories or prompts that occur in a number of items should always be translated the same way, measurement units should be written the same way, etc.</p> |
| ADAPTATION OR CULTURAL ISSUE | <p>An adaptation is an intentional deviation from the source version made for cultural reasons or to conform to local usage. They <u>should be agreed</u> by the ESS translation team at GESIS and the ESS-ERIC HQ at City University London.</p> <p>An adaptation or cultural issue occurs when an adaptation would be needed but was not made, or when an inappropriate or unnecessary adaptation was made.</p>   |
| MISTRANSATION                | <p>A wrong translation, which seriously alters the meaning. A <u>mistranslation should always be reported with an explanatory back-translation and/or accompanied by an English rendition of what the incorrect target version says</u>. Note: a vague or inaccurate translation should rather be classified as a Register/Wording issue (or sometimes a Grammar/Syntax issue).</p> <p>This category may cover cases where the source has been misunderstood, but also copy/paste errors that unintentionally result in a wrong text element or segment.</p>  |
| ANNOTATION NOT FOLLOWED      | An explicit translation/adaptation guideline for a given text element or segment given in an annotation was overlooked or was not addressed in a satisfactory way.  |
| ALERT NOT REFLECTED          | A late change made to the source questionnaire – released as an 'Alert' – has not been reflected in the target version.   |
| Layout / VISUAL ISSUE        | A deviation or defect in layout or formatting: disposition of text and graphics, item labels, numbering/lettering of questions and, response categories, styles ( <b>boldface</b> , <u>underlining</u> , <i>italics</i> , UPPERCASE), legibility, tables, number formatting (decimal separators, "five" versus "5"), etc. This category will only be used if submitted translations are already formatted.  |
| MINOR LINGUISTIC DEFECT      | Typo or other linguistic defect (spelling, grammar, capitalization, punctuation, etc.) that does not significantly affect comprehension or equivalence.   |

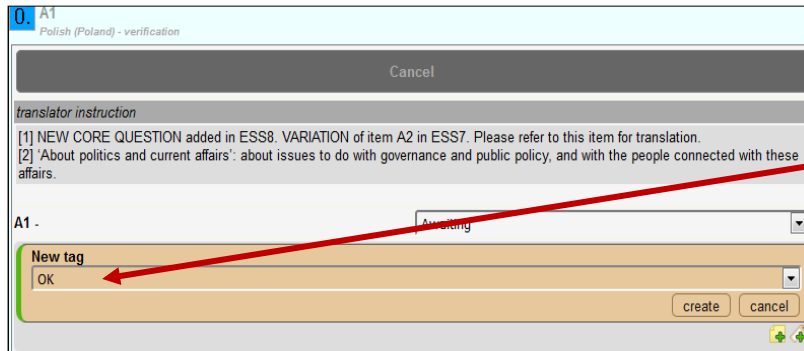

# Verifier's rationale

| VERSION AFTER ADJUDICATION / FOR VERIFICATION  | COMMENTS AFTER ADJUDICATION | NOTES FOR VERIFIER  | VERIFIER'S VERSION  | VERIFIER INTERVENTION CATEGORY | VERIFIER'S RATIONALE            |
|--|-----------------------------|---|---|--------------------------------|---------------------------------|
| Il governo dovrebbe <u>attenersi</u> alle misure previste senza curarsi di ciò che pensa la maggior parte della gente. |                             | Maintaining 'policies that had been planned'<br>Translate 'what most people think' and NOT 'public opinion'       | Il governo dovrebbe <u>attenersi</u> alle misure previste <b>a prescindere</b> da ciò che pensa la maggior parte della gente. | Register/Wording               | yellow highlight when corrected |
| (Dipende dalle circostanze )   |                             | 'it depends on the circumstances' must be kept in brackets as a valid answer but must not appear on the showcard. | (Dipende dalle circostanze )  | OK                             |                                 |

# Verifier's rationale

| ENGLISH SOURCE VERSION  | ANNOTATIONS   | VERSION AFTER ADJUDICATION / FOR VERIFICATION  | NOTES FOR VERIFIER  | VERIFIER'S VERSION  | VERIFIER INTERVENTION CATEGORY   | VERIFIER'S RATIONALE  |
|---|---|--|---|---|--|---|
| The government should <u>stick</u> to <sup>96</sup> its planned policies regardless of what most people think | <sup>[96]</sup> 'stick to' in the sense of 'not change' | Il governo dovrebbe <u>attenersi</u> alle misure previste senza curarsi di ciò che pensa la maggior parte della gente. | Maintaining 'policies that had been planned'<br>Translate 'what most people think' and NOT 'public opinion' | Il governo dovrebbe <u>attenersi</u> alle misure previste <b>a prescindere da</b> ciò che pensa la maggior parte della gente. | Register/Wording<br>  | Ver. suggests a more appropriate translation for "regardless". Changed.<br><br>OK for "planned policies" and "what most people think".  |
| ENGLISH SOURCE VERSION  | ANNOTATIONS   | VERSION AFTER ADJUDICATION / FOR VERIFICATION  | NOTES FOR VERIFIER  | VERIFIER'S VERSION  | VERIFIER INTERVENTION CATEGORY   | VERIFIER'S RATIONALE  |
| The government should <u>stick</u> to <sup>96</sup> its planned policies regardless of what most people think | <sup>[96]</sup> 'stick to' in the sense of 'not change' | Il governo dovrebbe <u>attenersi</u> alle misure previste senza curarsi di ciò che pensa la maggior parte della gente. | Maintaining 'policies that had been planned'<br>Translate 'what most people think' and NOT 'public opinion' | Il governo dovrebbe <u>attenersi</u> alle misure previste <b>a prescindere da</b> ciò che pensa la maggior parte della gente. | Register/Wording<br> | "regardless" translated as "carelessly" which gives a negative connotation. Ver. changed to a more neutral form.<br><br>OK for "planned policies" and "what most people think". |

NOTE

Separate training for verifiers who will work in TranslationCtrl

# Verifier's role

- Compare target to source, sentence by sentence
- Take **annotations** and **notes** into account
- Choose intervention category: “OK” or intervene in target
- Document **interventions**
- Document the **rationale** behind the intervention
- 👉 useful for both the countries and the Core Scientific Team

AIM AT BALANCE BETWEEN FLUENCY AND ACCURACY!

# About questionnaires in general

ASK ALL

Now some questions on a different topic.

G1 CARD 60 Imagine you wanted to access the Internet. At which of these locations would you be able to do it? Select all that apply.

PROMPT At which others?

CODE ALL THAT APPLY

Question stem

- At home 1
- At my workplace 2
- On the move<sup>117</sup> 3
- At some other place 4  
(such as a café or a friend's house)
- None of the above 5
- (Refusal) 7
- (Don't know) 8

Response categories

# Ask the Same Question

## Translation and Adaptation Guidelines

|   |   |
|---|---|
| Clarity and fluency                               | no ambiguity, no connotations, if not in source             |
| Brevity and conciseness                           | no additional reading/listening burden                      |
| Completeness                                      | no omissions of temporal/spatial framework, conjunctions    |
| Sequence  | Check order in response categories or enumerations          |
| Terminology                                       | Check register, target group; 📢 Personal aspect of items    |
| Consistency in question, modules, context, scales | 📢 But not at all costs!                                     |
| Scales  | Check intervals, <i>fixed reference points</i> , length     |
| Adaptations                                       | Check [inbuilt] - compulsory, report unforeseen adaptations |
| Layout  | Check if translation formatted as source                    |

# Ask the Same Question

D28a

Now I want you to think again about how important you think different things are for democracy in general.

CARD 40

Not at all important for democracy in general

Extremely important for democracy in general

[NOTHING CAN GO BEYOND]

≠ literal translation (different structure, grammar, lexis, culture...)

= source meaning conveyed in the target language

with the means of the target language

Extremely important for democracy in general

|  |                    |
|--|--------------------|
| That national elections are free and fair  | = D1 & E1 in ESS6  |
| That the courts treat everyone the same  | = D6 & E10 in ESS6 |
| That the government protects all citizens against poverty  | = D8 & E13 in ESS6 |
| That citizens have the final say on the most important political issues by voting in referendums | = D5 & E8 in ESS6  |
| That the views of ordinary people prevail over the views of the political elite                  | = D10              |

# Ask the Same Question

| ITEM NUMBER / TEXT TYPE | ENGLISH SOURCE VERSION   | ANNOTATIONS  | NOTES FOR VERIFIER  |
|-------------------------|--|--|---|
|                         | How <b>familiar</b> <sup>118</sup> are you with each of the following computer and Internet-related <b>items</b> ? | <sup>118</sup> 'Familiar' should be translated to convey understanding rather than experience. | Check that "familiar" does not imply "experienced". It should mean that one knows what the term means and how to use these features, but not with expert knowledge about the technical background of how they are programmed or similar. Layperson understanding is meant. See Q&A for more info. "item" in the sense of 'an object of attention, concern, or interest'. This question measures to what extent the respondent understands the 'thing' that is mentioned (preference settings etc.). |
| <b>I above G2-G4</b>    | <b>READ OUT EACH ITEM</b>  |  |   |
| <b>G2</b>               | Preference settings  |  | Check that no examples are added in G2, G3 and G4. English terms could be used as reference if these are more common in target countries than translated terms.   |
| <b>G3</b>               | Advanced search  |  | English terms could be used as reference if these are more common in target countries than translated terms.  |
| <b>G4</b>               | PDF  |  | English term could be used as reference if these are more common in target countries than translated terms.   |
| <b>RC</b>               | <b>Not at all familiar</b>   |  |   |
|                         | <b>Not very familiar</b>   |  |   |
|                         | <b>Somewhat familiar</b>   |  |   |
|                         | <b>Very familiar</b>   |  |   |
|                         | <b>Completely familiar</b>   |  |   |

Does the scale match the question stem?

# Consistency

Key terms

Scales

Interviewer's instructions (write → type in ESS10)

Formulations, patterns

# Make sure that ...

- the order is the same as in the source questionnaire
- translated response categories do not overlap (e.g. *often* and *frequently*)
- ‘extremely’, ‘completely’ = extreme endpoints (nothing can go beyond it)
- in **existing items**, translation should stay **unchanged**

# Correct also

- ✓ Incorrect grammar, typos, punctuation
- ✓ Missing formatting (emphasis in bold, underline, capital letters)

# Remember

## If it is not broken, do not fix it!

- ✓ Make sure that annotations are applied
- ✓ Always consult documentation
- ✓ Respect team decisions
- ✓ **Avoid preferential changes**

# Q&A Process

- Whenever in doubt – please ask
